

INTRODUCING

# STREAMLINE™

Our Most Affordable & Compact Swimming Pool  
for Year-round Fun & Fitness

Imagine enjoying all the benefits of year-round swimming and low-impact exercise in healing warm water ... all from the convenience and privacy of your own home. **That's what Streamline delivers.**

Our newly designed Streamline uses a 2.5-hp centrifugal pump and our 21" x 7" conditioning grill to produce a smooth, swimmable current with a top speed of 1:55/100m.

With the compact Streamline, we've simplified the choices, allowing us to offer exceptional value in a complete pool package:

- **Complete Kit** comes with everything you need to swim
  - skirting, coping, cover, heater and rear steps/seats
- **Modular Construction** lets you fit the pool indoors or out, including existing rooms. Perfect for basements, garages or even your garden
- **Newly Engineered Swim Current**, with a top speed of 1:55/100m, adjusts to suit most swimmers.

**The Streamline current is smooth and strong enough to earn the Endless Pools® name, and it's perfectly paced for the recreational swimmer. With tens of thousands of customers in more than 100 countries, Endless Pools is trusted worldwide as the premier manufacturer of swim-in-place pools.**

# SWIM AT HOME FOR LESS
